

CASE STUDY: Restaurant Kiosk

Project Overview

Technology: **Kiosk**

Market: **Restaurant – Bakery/Cafe**

Project Duration: **120 Days**

Number of Locations: **500**

Nationwide

Customer Challenge

A large restaurant chain was looking for a wired solution to their existing wireless training kiosk. The chose provider would need extensive experience with cabling infrastructure, kiosk installation and service.

Worldlink Solution

- utilized Just-In-Time delivery system
- installation of Ethernet cabling
- reconfiguration of communication protocol
- test and turn up of kiosks
- utilized online service portal for troubleshooting and checkout
