

CASE STUDY: Health Kiosk Installation

WORLDLINK INTEGRATION GROUP

Project Overview

Technology: Kiosk

Market: Government

Project Duration: 1 Month

Number of Locations: 37

Customer Challenge

A health monitoring kiosk manufacturer was awarded a national rollout of their hardware for the VA. This rollout required a deployment partner who could install the hardware, as well as train relevant staff at the first group of hospitals.

Worldlink Solution

- utilized Just-In-Time delivery system
- inventory management of all equipment
- provided post installation maintenance
- equipment installation, testing, and turn-up
- training of on-site staff in hardware usage
