

CASE STUDY: POS Scanner Upgrade

WORLDLINK INTEGRATION GROUP

Project Overview

Technology: Honeywell 2D Scanner

Market: Retail- Specialty

Project Duration: 8 Days

Number of Locations: 311

Customer Challenge

A recently acquired specialty retailer was faced with the challenge of replacing all POS scanners chain-wide to support the new parent company's loyalty program. There was limited time to complete the upgrade in anticipation of an upcoming promotional campaign.

Worldlink Solution

- utilized Just-in-Time delivery system
- inventory management of all equipment
- equipment installation, testing, and turn-up
- de-installation and disposition of existing equipment

Customer Testimonial

"We don't have the resources to facilitate and manage a deployment like this on our own in such a short time frame. There is no way that we could have pulled this off without you guys."

M.M.- IT Technical Director
