

## CASE STUDY: Specialty POS Refresh

# WORLDLINK INTEGRATION GROUP

### **Project Overview**

**Technology:** Point of Sale System

**Market:** Retail – Sporting Goods

**Project Duration:** 90 days

**Number of Locations:** 390

**Nationwide**

### **Customer Challenge**

One of the largest sporting good retailers was looking to replace their current POS system at all of their stores. After selecting their hardware provider they desired a single turnkey partner to deploy the new system.

### **Worldlink Solution**

- inventory management of all equipment
- staging, shipping, and configuration
- utilized Just-In-Time delivery system
- equipment installation, testing, and turn-up
- de-installation and disposition of existing equipment

### **Customer Testimonial**

“Worldlink has been handling all of our new store activities since 2002 and continues to exceed our expectations today. As a result of their continued success we have partnered with Worldlink on most of our in-store technology projects over the years and continue to be 100% satisfied with their efforts and commitment to our partnership.”

**M.S. – VP IT**
