

CASE STUDY: T1 Upgrade

WORLDLINK INTEGRATION GROUP

Project Overview

Technology: T1 Circuit/ New Router

Market: Retail-Specialty

Project Duration: 3 Months

Number of Locations: 30

Customer Challenge

A large clothing retailer was experiencing problems with their existing T1 circuit repeatedly dropping service.

Worldlink Solution

- identified new T1 and extended into suite
- worked with retail IT support to properly configure the router onsite
- cut over to new T1 and tested systems
